All health care professionals including medical doctors, osteopathic doctors, chiropractic doctors and physical therapists that perform manipulation (adjustments) are required by law to obtain your informed consent before initiating treatment.

I, _____, do hereby give my consent to the performance of conservative, noninvasive treatment to the joints and soft tissue. I understand that the procedures may consist of manipulations (adjustments) involving movement of the joints and soft tissue. Therapeutic exercise, ultrasound, hot packs (or ice), TENS units and other therapeutic modalities may also be used.

Risks: Although spinal manipulation/adjustment is considered to be one of the safest, most effective forms of therapy for musculoskeletal problems, I am aware that there are risks and complications associated with these procedures as follows:

Soreness: I am aware that, like exercise, it is common to experience muscle soreness in the first few treatments.

Dizziness: Temporary symptoms like dizziness can occur but are relatively rare.

Fractures/Joint Injury: I further understand that in isolated cases of underlying physical defects, deformities, or pathological processes such as weak bones from disease, cancer or osteoporosis may render the patient susceptible to injury.

Stroke: Although strokes happen with some frequency in our world, strokes from chiropractic adjustments are rare. I am aware that nerve or brain damage including stroke is reported to occur between once per million to once per ten million treatments.

General Modalities: hot packs, ice packs and other adjunctive therapies used in tissue healing can, if used inappropriately, cause discomfort such as burns or pain. If this were to occur I understand that it should be reported to the doctor.

Positive Treatment Results: I also understand that there are beneficial effects associated with these treatment procedures including decreased pain, improved mobility and function, and reduced muscle spasm. However, I appreciate there is no certainty that I will achieve these benefits. I agree to the performance of these procedures by my doctor and such other persons of the doctor's choosing.

Alternative Treatment: Reasonable alternatives to these procedures have been explained to me including rest, home therapy, over the counter medication, medical consultation, surgery and the absence of treatment altogether.

I have read or have had read to me the above explanation of chiropractic treatment. Any questions I had regarding these procedures have been answered to my satisfaction PRIOR TO MY SIGNING THIS CONSENT FORM. I have made my decision voluntarily and freely.
